**INDUSTRIAL YEASTS COLLECTION**  
*Department of Agricultural, Food and Environmental Science*  
*University of Perugia*  
*Borgo XX Giugno, 74 – I 06121 Perugia – Italy*

**PATENT DEPOSIT FORM** (please use a typewriter or print)

1) **Scientific name and author(s):** .....

.....

2) **Name of other state:** .....

.....

3) **Is this strain pathogenic to humans or animals?** .....

DBVPG regrets to inform you that pathogenic strains cannot be accepted due to our policy since 1995 of accepting only non-pathogens into the collection. Please refer to another collection for this strain. We will be happy to access other non-pathogenic strains in the future.

4) **Literature citation of the species description:**.....

.....

5) **Collected by:** .....

6) **Number or code of the strain:** .....

7) **Is the strain also deposited in other collections ? (Please list eventual collection initials and numbers)**  
 .....

8) **Isolation information**

**Isolated by:** .....

**Date:** .....

**Received from (if not the name of collector or isolator):** .....

.....

**Isolated from (source):** .....

**Locality (country, state, ..):** .....

**Identified by:** .....

**Identification techniques used:** .....

**Date of original identification:** ..... **Originally identified as:** .....

**Observations on original identification:** .....

(please continue on the next page)

**9) Specific strain information**

**a) Recommended media and growth conditions (please indicate the formula):**

.....  
.....

**b) Recommended subculture period: ..... c) and growth temperature ..... °C**

**d) Has a sexual cycle been observed for this strain?**

**If yes, what are the re-commended conditions for sexual sporulation? (Media and cultural condition):**

.....  
**Mating type ..... or self-sporulating .....**

**Notes or observations regarding the sexual cycle: .....**  
.....

**e) Killer protein information:**

**Does this strain produce a killer protein? .....**

**If yes, is it produced by a plasmid? .....**

**If yes, has the plasmid been characterized? .....**

**Is this strain sensitive or resistant to toxins produced by other strains? .....**

**f) Technological information:**

**Does this strain decompose particular substances? ..... If yes, which one? .....**

**Does this strain produce useful substances? ..... If yes, which one? .....**

**Does this strain have particular applications? ..... If yes, which one? .....**

**Is this strain patented or undergoing the process? .....**

**g) Additional information (references to literature, DNA sequences accession numbers, etc) will be very much appreciated:**

.....  
.....
